MOTION BY SUPERVISOR ZEV YAROSLAVSKY

June 21, 2004

AMENDING MOTION

Over the years, there have been many proposed alternatives for opening and closing various Sheriff's facilities, as well as for shifting, expanding and reducing services offered at particular Sheriff's facilities, including jails.

Like the Health Department and the Parks Department, the Sheriff's Department should enjoy the benefit of a comprehensive master plan for facilities. This will allow the Department, in good times and bad, to better allocate resources, facilitate planning, and – with the recent trend in inmate homicides – to determine whether the jail facilities are running optimally.

I, THEREFORE, MOVE that the CAO report back to the Board in 30 days on the scope, time, and cost of developing a comprehensive facilities master plan for the Sheriff; the project should include a full review and assessment of all alternative proposals for the Sheriff's facilities, including jails.
